HOW ARE WE MORE ESG?

Institutional investing has changed. Sustainable strategies are no longer considered niche; there is a strong argument that they have become mainstream, especially for long-term investors.

Each month our **ESG feature** educates and informs our audience of investors on the latest ESG topics. We believe that by being a member of our **ESG Club**, you'll have the opportunity to educate our institutional readers on what their organisations' beliefs and actions should be in regard to specific ESG subjects to aid them further in their decision-making.

At *portfolio institutional* we are leaders in ESG. We are **ESG-focused** not only in our content but also in the magazine itself. Using vegetable ink, compostable packing and FSC-approved paper, we ensure we are practising what we preach.
